

AFE	Analog Front End
CSMA/CA	Carrier Sense Multiple Access with Collision Avoidance
Cu-DA	Kupferdoppeladern
DBP	Digital Baseband Prozessor
DFE	Digital Front End
DM	Domain Master
FFT	Fast Fourier Transform
FTTDP	Fibre to the Distribution Point
G.hn	Standard der ITU-T für Home Networking (G.9960/G.9961)
GPIO	General Purpose Input/Output
IDB	Inter Domain Bridges
IEEE	Institute of Electrical and Electronics Engineers
ITU-R	International Telecommunication Union - Radiocommunication Sector
ITU-T	International Telecommunication Union - Telecommunication Standardization Sector
LAN	Local Area Network
MAC	Media Access Control
MIMO	Multiple Input Multiple Output
MoCA	Multimedia over Coax Alliance
OFDM	Orthogonal Frequency-Division Multiplexing
PHY	physikalische Schnittstelle
PLC	Powerline Communication
PSD	Power Spectral Density
QAM	Quadrature Amplitude Modulation
QoS	Quality of Service
RAM	Random Access Memory
TDMA	Time Division Multiple Access
UPA	Universal Powerline Association
